Customer Reviews

It follows the common core. You can find summarizing, text features, inference, and compare & contrast. I'm teaching 5th grade, but this still fall under the curriculum. Can turn some worksheets into projects for center time.

I love the way the units are set up in this book. Each unit has complete learning stations that can be done with small groups or with individual students,. The units include everything you need from maps, primary documents, handouts, charts, photographs, etc. I will definitely use my review copy of this book with each unit I teach.
