# Nobody Passes: Rejecting The Rules Of Gender And Conformity

## Synopsis

Nobody Passes is a collection of essays that confronts and challenges the very notion of belonging. By examining the perilous intersections of identity, categorization, and community, contributors challenge societal mores and countercultural norms. Nobody Passes explores and critiques the various systems of power seen (or not seen) in the act of 'passing'. In a pass-fail situation, standards for acceptance may vary, but somebody always gets trampled on. This anthology seeks to eliminate the pressure to pass and thereby unearth the delicious and devastating opportunities for transformation that might create. Mattilda, aka Matt Bernstein Sycamore, has a history of editing anthologies based on brazen nonconformity and gender defiance. Mattilda sets out to ask the question, 'What lies are people forced to tell in order to gain acceptance as 'real'?' The answers are as varied as the life experiences of the writers who tackle this urgent and essential topic.

## Customer Reviews

Many months have gone by since the publication of this handsome and groundbreaking anthology, and it is time to declare it a true classic, having passed the test of time, the test truly exacting, the test that makes sense. The articles are still as timely and fresh as the day they were written. On the topic of passing, Mattilda (a/k/a Matt Bernstein Sycamore) is often eloquent, while stretching the topic into unexpected places to such a degree that the often elastic word comes to have little or no connection with the activity it once used to denote. In a way, this book is a more progressive and

activist sequel to Brooke Kroeger's standard-bearing study *PASSING: WHEN PEOPLE CAN'T BE WHO THEY ARE*. "Passing"---the search to be what you're not---has gotten a bad press over the years, and Kroeger's book was one of the first to make us challenge our assumptions regarding this taboo topic. In a similar vein, Mattilda assembles a cross section of profiles of young contemporary Americans, supplementing extensive interviews with expert comment. In the background of *NOBODY PASSES* we experience, as though a shadow had crossed the sun, the tragic tales of "passing" as that of Brandon Teena, the drifter whose murder became the basis for the film "Boys Don't Cry." Mattilda's book urges to ask the question, Aren't we all "passing" in one way or another? She musters scholarly and theoretical sources to support her speculations on identity and authenticity, and even dares to ask, why are we doing this? What market are we being offered up to satisfy? Why is eros shaped the way it is? Why do some pass the test (the other test, not the test of time) and others fail, condemned into a limbo of "quirky" and deprived of the rights accorded other citizens with more money.
