Customer Reviews

This book is a real discourager for using alternative (traditional) medicine. I am so allergic that I'm forced to wear a painter's mask when not at home. I don't go to regular medical doctors because their solutions are in the form of powerful toxic medicines that are loaded with side-effects. Unable to take these medicines, which result in terrible migraine headaches, I am grateful for alternative practitioners and people who write books that assist people like me. This book was not helpful at all!
