Customer Reviews

I think this publication is great. Simple, to the point, no hype and no salesmanship. The information enclosed is very helpful and useful. The only issue I can think of is that you have to read it before

you go, not after you have started your travel. I guess it depends where you are traveling to, but just keep in mind that finding a trustworthy source of herbal products or herbs in a new town may be a significant endeavour.

This is a terrible book. It's incredibly vague and is not for someone who wants to learn something. I'm very disappointed
