Customer Reviews

I got this guide for my wife. We have 2 little boys and she really wants her girl so I figured this might help give some guidance on how to achieve that. She seemed to really like the book (she couldn't put the thing down!) and she said it gave her a lot of new techniques to try as well as things to stay away from. Now we have a list of techniques we can try to finally have our baby girl.

To be able to get pregnant is already a blessing! But to know through this book, that we can actually choose the gender of our babies by simply following natural and easy methods. Truly, the content of this book is so amazing! I highly recommend this book especially to those couples who are trying to conceive.

It gave a lot of info you can read for free online. Fine for \$1. Wish it had more meat.

Great read and full of useful information. Directions are easy and self explanatory I would recommend this book to a friend

I learned so much in this short ebook. I recommend you download it. Its so helpful.
