I have many books on energy. Yet there is nothing quite like seeing the various energy techniques demonstrated, most of which are new to me. I know I would not be doing these exercises properly if I did not see it demonstrated on the DVD. The method used here is a combination of acupressure tapping, and kinesiology method of energy testing to spot energy weaknesses. She also demonstrates the Wayne Cook posture for balancing energy. I found the Heaven rushing in exercise particularly good. I was particularly interested to learn that there are pressure points for fight or flight response (also the freeze response), which I now use for staying clear. In this package is a guidebook with her biography, case studies and an explanation with diagrams of the body's energy

systems and a deck of easy to follow flashcards. There is also a cut glass crystal, with a string for spinning the crystal, which can act like a pendulum. The crystal can be used for chakra cleansing, and I could certainly feel a shift in energy in the chakras as they reattuned to the higher vibration of the crystal. There is also a cd. This package is a great value. If you are like me, you may be wondering which I should buy first, the Energy Medicine book or this kit. This EM kit stands by itself, and the multi media format is more user friendly than a book could be. Also, it is easier to carry around the flash cards than a book, for reference. I highly recommend the energy medicine kit.
